

The embodiments of the present invention described above are to be regarded in all respects as being illustrative and nonrestrictive. Accordingly, the present invention may be embodied in other specific forms without deviating from the spirit thereof. The present invention is therefore to be limited only by the ~~scopes~~ scope of the following claims.

IN THE ABSTRACT

On page 11, please amend the Abstract as follows:

A sprinkler ~~comprises~~ includes a handle, a nozzle, and a connection structure for connecting the nozzle to the handle. The connection structure ~~comprises~~ has an extension pipe and a connection member. The extension pipe is formed of an outer tube fastened at a bottom end ~~with~~ to the handle, and an inner tube fastened at a top end ~~with~~ to the nozzle. The connection member is formed of a first connector and a second connector. The first connector is engaged with a top end of the outer tube and is engaged with the second connector. The inner tube is slidably fitted at a bottom end into the top end of the outer tube through the first connector such that the inner tube is intimately embraced by the first connector.
